PROFESSIONAL SUMMARY

Backend Software Engineer with 4+ years of experience building and operating Java and Spring Boot services for retail and restaurant platforms. Experienced in API design, distributed systems, database optimization, and production troubleshooting using PostgreSQL, Elasticsearch, and GCP.

SKILLS

Languages: Java, SQL, Python, TypeScript, JavaScript
Backend & Frontend: Spring Boot, Node.js, Flask, React, HTML, CSS
Data & Messaging: PostgreSQL, PostGIS, Elasticsearch, MySQL, Redis, Kafka, Kubernetes, Google Cloud Pub/Sub, BigQuery
Cloud & DevOps: GCP, AWS, Oracle Cloud, Docker, Git, GitHub Actions, CI/CD

WORK EXPERIENCE

Twinleaves (Pallet) — Bengaluru, India

Software Development Engineer II — May 2024 – Present

- **Catalog Search:** Implemented PostgreSQL and Elasticsearch-backed search across **1M+ products**, sustaining **45K+ queries/min** at **p99 latency under 18ms**, with filters, aggregations, and store-specific pricing.
- **Cart & Checkout:** Expanded and optimized a shared cart and checkout system for POS, Restaurant, B2C, and B2B across **1,000+ stores**, covering pricing, promotions, GST, and order finalization. Cut add-to-cart latency by **94% (2s to 112ms)** by improving catalog lookups, inventory checks, and offer evaluation.
- **Catalog Synchronization:** Automated master product synchronization across **700+ stores** using idempotent retries, preserving store-specific pricing and inventory overrides.
- **AI Catalog & Website Builder:** Developed two chat-based AI agents for catalog management and website creation, cutting product onboarding time by **70–80%** and website setup time by **80–90%**.
- **Technical Leadership:** Led **3 backend engineers** across **11 microservices**, reviewing code, making design decisions, and managing releases. Led backend development for a **14-member cross-functional Restaurant team**, including Zomato/Swiggy integrations.
- **Tax Calculation Engine:** Built a tax engine processing **100K+ calculations/day** at **p99 latency under 20ms**, supporting location- and date-based tax rules, dependent tax calculations, cascading taxes, and invoice rounding.
- **Shared Backend Libraries:** Architected Spring Boot libraries for multi-tenant access control, RBAC, API rate limiting, and AI usage tracking. Built a JDBC connection pool using CAS and non-blocking queues, achieving **sub-millisecond connection checkout**.

Software Development Engineer — Sep 2022 – May 2024

- **Core Microservices:** Joined as the first engineering hire and developed **6 Java/Spring Boot microservices** for Cart, Catalog, Serviceability, Logistics, Vendor, and Communication; contributed to **10+ other services**.
- **Serviceability & Delivery:** Built PostgreSQL & PostGIS based location and radius checks for instant, same-day, and scheduled deliveries, with delivery-slot lookup and ETA calculations under **45ms**.
- **Cloud Infrastructure & CI/CD:** Set up the platform's first GCP environment using Cloud Run, Cloud SQL, VPC, Cloud NAT, and load balancers. Added Docker and Cloud Build CI/CD pipelines for automated deployments.
- **Integrations & Offline Sync:** Integrated WhatsApp Business, GS1 Datakart, and Firebase with backend services. Added offline POS inventory sync to apply pending changes after network reconnection.

PROJECTS

JobBeeper | Python, PostgreSQL, Redis, Docker, Oracle Cloud — jobbeeper.com

- **Product Development:** Launched JobBeeper, a job-alert platform serving **2K+ active users**, collecting openings from **25+ hiring platforms** and sending alerts through Telegram, email, web push, and Android.
- **Job Matching & Delivery:** Created PostgreSQL and Redis pipelines to match jobs to user preferences, avoid duplicate alerts, and retry failed notifications.
- **Production Infrastructure:** Deployed and operated JobBeeper on Oracle Cloud using Docker, PostgreSQL, Nginx, and CI/CD, supporting millions of delivery records and automated job alerts.

EDUCATION

Diploma in Computer Science, Bharati Vidyapeeth, Maharashtra — Aug 2018 – Oct 2021

RECOGNITION

Received the **Employee of the Quarter** award every quarter since December 2022 and the **Employee of the Month** award multiple times at Twinleaves.
